

4775-2-03

Changes in information or data required by board for issuance of regular, temporary or renewal registration certificate.

- (A) When a motor vehicle collision repair operator experiences a change in any information or data required by the board for registration subsequent to the original issuance of or renewal of either a regular or temporary registration certificate, the motor vehicle ~~collision~~collision repair operator shall submit written notification of the change(s) to the Ohio board of motor vehicle collision repair registration within sixty days after the change(s) in information or data. If a motor vehicle collision repair operator fails to submit written notification to the board within sixty days after the change(s) in information or data, the operator's registration certificate, whether regular or temporary, shall be suspended, except that the board may, at its discretion, waive the suspension for good cause shown.
- (B) In addition to registration suspension, the board may require a fee by paid by a collision repair operator who fails to provide the board with notification of the changes to the information or data required by the board within sixty days from the date the changes occur. ~~Said fee shall be equivalent to the administrative costs incurred by the board to record and process the changes provided by the operator subsequent to the expiration of the sixty day notification requirement. Said fee shall be calculated annually.~~
